

## Explore and discover NYC's landscape marvels with free tours

in all five boroughs, featuring some of the nation's most innovative landscapes spanning two centuries of design. Experience the great civic spaces of Brooklyn's Grand Army Plaza and Prospect Park, Bob Zion's original "vest pocket park" at Manhattan's Paley Park; Wave Hill's majestic views of the Hudson River from the Bronx, and the unique urban design of Sunnyside Gardens in Queens. Many are places people pass daily, but do we know their background stories? *What's Out There Weekend* promises to shed new light on familiar places.

*What's Out There Weekend* dovetails with TCLF's Web-based *What's Out There*, the nation's most comprehensive, free, online database of designed landscapes. The database offers a broad and interconnected way to discover the breadth of America's landscape heritage, while *What's Out There Weekend* gives people the opportunity to experience the landscapes they might see every day in a new way.

The Cultural Landscape Foundation (TCLF) provides people with the ability to see, understand, evaluate and appreciate landscape architecture and its practitioners, in the way many people have learned to do with buildings and architects. Through its web site, lectures, outreach and publishing, TCLF broadens the support and understanding for cultural landscapes nationwide.
